Music to be played during the Ceremony and Reception (title and artist): I use the same songs that you use throughout your wedding ... Processionals (Mothers, Bridal Party, Bride), Recessional, First Dance and so on.....if you are having live music I will do my best to record that but sometimes it doesn't work as well due to background noise. You will get all of the raw footage on DVDs with the live audio so it will be recorded nonetheless but for editing purposes sometimes it's just better to use studio versions of songs.
